

Innovative “vanishing” elevator

Ultra-high capacity of 845 lb!

**Sleek modern styling with
transparent panels to blend
with your home décor**

**Space-saving design;
no hoistway required**

Savaria® Telecab17 Home Elevator

MAXIMIZE YOUR LIVING SPACE

If you are looking for a space-saving, stylish and affordable mobility solution for your home, the Savaria Telecab17 is the answer for you. The Telecab17 is a two-stop elevator that travels through a simple floor cut-out for a vanishing elevator effect, leaving you more usable space. Available in two standard sizes – both with a capacity of 845 lb – the lift can typically handle multiple passengers as well as heavier mobility equipment. With a modular, fully enclosed drive tower which attaches to a support wall, no hoistway is required – so no need to worry about complex, costly installations.

 **savaria.**

Savaria® Telecab17 Home Elevator

MAXIMIZE YOUR LIVING SPACE

- Fully enclosed drive tower designed for safety and aesthetics means that no hoistway or pit is needed
- Two stops and up to 23' (7 m) of travel
- Two standard cab sizes to choose from: 30" x 46", or 36" x 54"
- Rust-resistant powder-coated aluminum frame (white) with clear acrylic window panels
- Constant pressure controls for operation with keyless or keyed access on car and call stations
- Cab top sensor stops the unit from moving when pressure is detected
- Left or right hand opening door; hydraulic door closer
- Safety features include: interior lighting, emergency stop and alarm buttons, battery lowering in case of power failure as well as manual emergency lowering, telephone, non-skid platform, underpan sensor to stop the unit if it meets an obstruction, pressure relief valve to prevent platform overload, door interlock, and slack chain safety device
- Optional battery power for up to 5 trips up and down, in case of power failure
